

Managing the ClearCube C/Port Solution

COURSE AUDIENCE

This course is designed for IT professionals, System Administrators and Systems Engineers.

COURSE PREREQUISITES

It is recommended that students have experience administering Windows desktop environments. Windows Server experience is not required to attend and complete this course, but basic knowledge is helpful.

CERTIFICATION EXAM

At the end of the course, students will have the opportunity to take the ClearCube C/Port Solution Certification exam, which is preparation for the ClearCube Certified Systems Engineer Level I Certification Exam.

PRODUCTS INCLUDED

C7130 C/Port, MVX
R1300, R2200 Blades
R4300 Chassis
Sentral™

Course SKU: G0990005

Course Overview

Managing the ClearCube C/Port Solution provides hands on training with the ClearCube C/Port solution hardware and Sentral™ management software. During the course, students will install and configure the C/Port hardware solution from desktop to data center. Students will then install and configure the Sentral™ software to take advantage of its specialized hardware management capabilities. This will allow students to explore and manage the entire solution, from the user to administrator experience.

This is an instructor-led course with classroom based lecture and hands on student labs. This course lasts 2 days and is provided in convenient locations around the United States and Europe. In some countries, this course can also be provided onsite for multiple students without needing your employees to travel.

Course Outline

Product Overview

- Benefits
- Solution Architecture

Blade Architecture

- Product Features
- Specifications

C/Port Architecture

- Product Features
- Specifications

Chassis Architecture

- Product Features
- Desktop to Datacenter

Installation of Sentral™

- Applications and Usage
- Configuration Guidelines

Solution Management with Sentral™

- Chassis and Blades
- Alerts and Views
- Reports

User Administration with Sentral™

- Switching users and blades
- Administrator Control
