

Managing the ClearCube PC-over-IP™ Solution

COURSE AUDIENCE

This course is designed for IT professionals, System Administrators and Systems Engineers.

COURSE PREREQUISITES

It is recommended that students have experience administering Windows desktop environments. Windows Server experience is not required to attend and complete this course, but basic knowledge is helpful.

CERTIFICATION EXAM

At the end of the course, students will have the opportunity to take the ClearCube PCoIP Solution Certification exam, which is preparation for the ClearCube Certified Systems Engineer Level I Certification Exam.

PRODUCTS INCLUDED

I9420, I9440, C7420
R1300, A1410 Blades
V5120, V5140 Cards
R4300, A3100 Chassis
Sentral™

Course SKU: G0990007

Course Overview

Managing the ClearCube PC-over-IP™ Solution provides hands on training with PC-over-IP enabled hardware and Sentral™ management software. During the course, students will install and configure the PC-over-IP enabled hardware solution from the desktop to the data center. Students will then install and configure the Sentral™ software to take advantage of its specialized hardware management and dynamic allocation capabilities. This will allow students to explore and manage the entire solution, from the user to administrator experience.

This is an instructor-led course with classroom based lecture and hands on student labs. This course lasts 3 days and is provided in convenient locations around the United States and Europe. In some countries, this course can also be provided onsite for multiple students without needing your employees to travel.

Course Outline

Product Overview

- Benefits
- Solution Architecture

Blade Architecture

- Product Features
- Specifications
- AMT Enabled Hardware

PC-over-IP Architecture

- Product Features
- Specifications and Video options

Chassis Architecture

- Product Features
- Direct Connections from Desktop to Datacenter

Installation of Sentral™

- Applications and Usage
- Configuration Guidelines

Solution Management with Sentral™

- Chassis and Blades
- Alerts and Views
- Reports

User Administration with Sentral™

- Allocation of users to blades
