

ClearCube Pre-Install Readiness Assessment Package

A Component of the CompleteStart™ Professional Services Program

CompleteStart Overview

The benefits of a ClearCube environment are significant, but getting the most out of your investment requires commitment and dedication. Careful planning, preparation and execution are the keys to a successful implementation. Fortunately, ClearCube is with you from start to finish. Designed to make the ClearCube implementation painless for the IT staff and transparent to the user, CompleteStart is a comprehensive program covering three vital areas: pre-Install readiness, training and installation.

Package Overview

Whether you are refreshing corporate desktops, implementing disaster recovery plans or adding new facilities – the Pre-Install Readiness Assessment will help ensure your buildings, infrastructure and personnel can meet the ClearCube hardware and software installation requirements.

Package Highlights

A certified ClearCube System Engineer will visit your site and work with your personnel to conduct a custom survey that includes the following:

- Infrastructure assessment: Power, cabling & HVAC requirements, equipment placement and UPS specifications.
- Detailed assessment of the current desktop environment supplemented by interviews with IT personnel involved with the daily operation and administration of desktop services.
- Identification of managerial and business goals to be used in generating a detailed gap analysis outlining the differences between the current and desired computing infrastructure.
- Analysis of the current infrastructure and operational processes against industry standards, best practices and long-term business goals.
- Identification and discussion of custom implementation services that would further enhance realized savings.

Upon completion of the survey, the customer will be provided with a complete set of readiness documents covering the following areas:

- Current Environment State
- ClearCube Architecture Assessment and Solution Design
- ClearCube Solution Deployment Proposed Statement of Work
- Proposed Next Steps

Ordering Information: Contact your ClearCube Customer Account Manager today to design and schedule a custom CompleteStart engagement for your facility.
