

Managing the ClearCube Thin Client Solution

COURSE AUDIENCE

This course is designed for IT professionals, System Administrators and Systems Engineers.

COURSE PREREQUISITES

It is recommended that students have experience administering Windows desktop environments. Windows Server experience is not required to attend and complete this course, but basic knowledge is helpful.

CERTIFICATION EXAM

At the end of the course, students will have the opportunity to take the ClearCube Thin Client Solution Certification exam, which is preparation for the ClearCube Certified Systems Engineer Level I Certification Exam.

PRODUCTS INCLUDED

I8020, I8820
Wyse V10L, V90L
R1300/1350, A1410 Blades
R4300, A3100 Chassis
Sentral™

Course SKU: G0990006

Course Overview

Managing the ClearCube Thin Client Solution provides hands on training with ClearCube and third party hardware and Sentral™ management software. During the course, students will install and configure the thin client hardware solution from the desktop to the data center. Students will then install and configure the Sentral™ software to take advantage of its specialized connection brokering and dynamic allocation capabilities. This will allow students to explore and manage the entire solution, from the user to administrator experience.

This is an instructor-led course with classroom based lecture and hands on student labs. This course lasts 3 days and is provided in convenient locations around the United States and Europe. In some countries, this course can also be provided onsite for multiple students without needing your employees to travel.

Course Outline

Product Overview

- Benefits
- Solution Architecture

Blade Architecture

- Product Features
- Specifications
- AMT Enabled Hardware

Thin Client Architecture

- Product Features
- Specifications

Chassis Architecture

- Product Features
- IP Connections from Desktop to Datacenter

Installation of Sentral™

- Applications and Usage
- Configuration Guidelines

Solution Management with Sentral™

- Chassis, Blades and thin clients
- Alerts and Views
- Reports

User Administration with Sentral™

- Allocation of thin clients and users to hosts
