Tech Bulletin TB00280:
R3082D Pre-OS Video with V5300-Series Host Card

Products Addressed

This Tech Bulletin addresses viewing pre-OS video (such as BIOS screens) on R3082D Blade PCs with V5300-series host cards.

Overview and Environment

To view pre-OS video on an R3082D blade with a V5300-series host card, ensure that DIP switch #4 is in the ON position (see the marking on the DIP switch for the ON position). The DIP switch is located near the FCC and CE silkscreen on the host card. You must remove the hard disk to access the host card DIP switch.

For Additional Information

For information about R-Series blades and chassis, see *R-Series Data Center Products User's Guide*.
