Topic: Unified Driver Update Bundle for R1150 – R2200
Component(s) Affected: R1150, R1200, R1300, R2100, R2200
Date: August 1, 2006

OVERVIEW / ENVIRONMENT

ClearCube Technology has developed a new unified driver package for R Series blades that provides drivers for chipsets, network adapters, video adapters, and RAID adapters.

DETAILED DESCRIPTION

ClearCube Technology has developed a new unified driver package for R Series blades. This package applies to the R1150, R1200, R1300, R2100, and R2200 blades, and provides updated drivers for all installed or available chipsets, network adapters, video adapters, and RAID adapters on these blades.

This package contains the following folders:

- **InfUpd –** contains INF files and installers
    - Single folder works for R1150, R1200, R2100, R1300, and R2200
- **Nic –** contains network adapter drivers and installers
    - Pro100 for R1150 and R1300
    - Pro1000 for R1200, R1300, R2100, and R2200
- **Raid –** contains RAID drivers and installers
    - R2200 only
- **Video –** contains video drivers and installers
    - Gforce – Legacy support
    - Intel – onboard video adapter for R1200 and R1300
    - Quad8260 – NVidia Quad Monitor Driver for R1150, R1200, R1300 and R2200
    - Quadro – Legacy support
    - Quadro (66.75) – Previous NVidia Quad Monitor driver for R1150, R1200 and R2100

Each folder provides README files for the driver installers as required for operation.

RESOLUTION

To use these drivers, download the `XP_Unified 1150-2200.zip` package from the ClearCube Support website. Unzip the file, and review the README files. After reviewing the README files, install the drivers as desired on your systems.

Note: This zipped file is approximately 85 MB in size, and approximately 116 MB uncompressed.
