

## USB Command Port (C/Port) for CPU Blades

### Remote Desktop Unit with USB Peripheral Connections and Security Features

Located at the user's desktop, this remote unit enables users to interface with their rack-mounted CPU Blade. Peripherals such as keyboard, monitor, mouse, and audio input/output devices connect quickly and easily through four standard USB ports. Because a wide variety of peripherals such as floppy drives, CD-ROMs, scanners, and cameras can be connected, the USB C/Port is ideal for clients who desire user flexibility. Security is not sacrificed, since peripherals are managed through both an operating system policy and a hardware lock that can prevent desktop connection to any mass-storage media. This lock is configured via a jumper on the centralized CPU Blade, which is locked away in a separate and secure location. The USB C/Port requires no special software, has no moving parts that can fail, and contains no removable parts that might encourage user tampering or theft. With its compact design, the USB C/Port can rest on the desk or be mounted underneath the desk with an optional mounting bracket. The USB C/Ports are available with or without a keyboard and mouse.

ClearCube's architecture combines CPU Blades, Cages, C/Ports, and advanced systems management to create a managed desktop environment that delivers exceptional security, reliability, manageability, and space savings with a lower total cost of ownership for enterprise computing.

#### ClearCube USB C/Port Specifications

##### Connections

- Four USB Ports (fully compliant to USB 1.1)
- VGA monitor connection (standard DB-15)
- RJ-45 for CPU Blade connection
- Power connector

USB C/Port

USB C/Port Rear View

**Dimensions:** 1.5"H x 3.4"D x 5.5"W

**Environment:** Stationary installation, 0-35 deg. C

- Standard 120V power adapter included
- Sharpness and tuning adjustment for video
- Up to 200 meters (660 ft.) distance to CPU Blade
- Requires USB-enabled CPU Blade
- Jumper-configurable mass-storage lockout (on CPU Blade)
- Under-desk mounting bracket (optional)

#### Ordering Information

Use the following part numbers to order your ClearCube USB C/Port:

|                    |   |
|--------------------|---|
| <b>CPT-USB1</b>    | USB C/Port with 100 meter support (4 USB ports)                       |
| <b>CPT-USB2</b>    | USB C/Port with 200 meter support (4 USB ports)                       |
| <b>CPT-USB1-KM</b> | USB C/Port with 100 meter support with USB keyboard & USB wheel mouse |
| <b>CPT-USB2-KM</b> | USB C/Port with 200 meter support with USB keyboard & USB wheel mouse |
| <b>CPT-MNTA</b>    | Under-desk mounting adapter for C/Port                                |
