

Engineering for Information Rich Environments Requiring External DVD Player Capabilities.  
**Fits most metal clients including zero clients and mini 'NUC' PCs.**

**DVD Player Bundle**

**KEY FEATURES**

**Random Access Time**  
200ms

**MTBF (Life)**  
60000 POH

**Compatibility**  
Windows 2000  
Windows XP  
Windows Vista  
Windows 7  
Windows 8  
Linux  
MAC OS

**TECHNICAL SPECS**

**Weight**  
220g

**Dimensions**  
1.5 inches (w) x 6.5 inches (h) x 5 inches (d)

**Interface**  
USB 2.0

**System Requirements**  
Windows 8 requires SSE2, PAE and NX-bit support  
1GB RAM and 16GB free disc space required under 32-bit OS  
(2GB RAM and 20GB space under 64-bit OS) for creating DVD disc

**Environment**  
*Operating:* 5°C to 35°C; Relative Humidity 10% to 80%  
*Non-Operating:* -40°C to 65°C; Relative Humidity 10% to 90%

**Physical Characteristics**  
Metal

**IDEAL FOR:**

- State & Local Government
- IT Professionals
- Military & Defense
- Command & Control Centers
- Healthcare, Financial, & Insurance

Part Number	Part Description
G0900353	DVD Player / Carriage Tray

**BENEFITS**

6 USB 2.0 ports  
(4 front / 2 rear)

Delivers full desktop quality computing experience via an IP connection to Blade PCs or VMware Horizon based hosts

AES256-bit encryption & increases security of physical and data assets

1 DVI-D and 1 DVI-D display connector

**Rear View**

### SUPPORTED BY VIRTUAL DESKTOP INFRASTRUCTURE

ClearCube has many customers who want to use DVD drives to read files that are transferred from place to place via DVD discs. The largest market segment is healthcare, where X-rays, digital scans, and new patient records are imported via DVD. Other use cases have been identified in training, transportation, manufacturing, and government market segments.

Zero clients are desktop devices that communicate with data center backend processing resources such as virtual desktops or Blade PCs over Ethernet network connections. Zero clients have no operating systems, memory or storage, and feature highly efficient PCoIP protocol that is supported by VMware’s Virtual Desktop Infrastructure software program, Horizon 6.

This drive is an option for all ClearCube zero clients, including the most popular CD1024 and CD2024 zero clients—with 6 USB ports and integrated smartcard readers.

ClearCube Zero Clients are assembled and tested in the U.S. and are fully TAA compliant.
