

CLEARCUBE

ClientCube Secure Desktop Controller Unit DCU

Bring control of the power of instant access to multiple networks and resources to the desk in a small form factor.

The Secure DCU is a secure remote control device for the ClientCube NET-4 and NET-8 solutions. It enables operators to easily switch devices, even if the ClientCube is located up to 50-feet away.

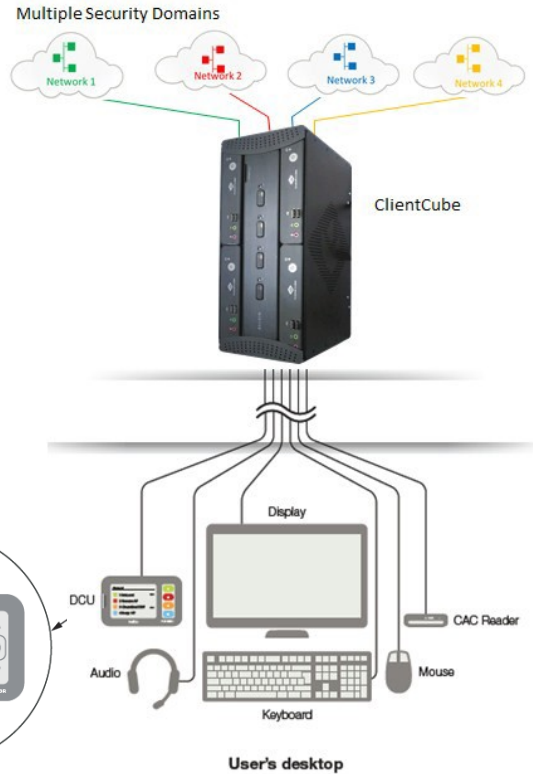

Secure DCU for ClientCube NET-4 Part No. G0900322

LCD Secure DCU for ClientCube NET-4 Part No. G0900323

Advanced Secure LCD DCU for ClientCube NET-8 Part No. G0900394

Common Criteria validated to EAL 4+ (Evaluation Assurance Level 4). One single connection from 3 to 50 feet from point to point gives you ease of resource switching at the touch of a button.
